

Gold Ore Separator Machine LX80 model Gold Centrifuge Concentrator

Basic Information

- Place of Origin: China
- Brand Name: Ascend
- Certification: ISO9001
- Model Number: LX80
- Minimum Order Quantity: 1 Set
- Price: 650-790USD
- Packaging Details: regular package
- Delivery Time: 7-10 work days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 100 sets per month

Product Specification

- Fine Gold Recovery: Gold Concentrator
- Power System: Generator Or Motor
- Usage: Gold Prospecting, Panning, Mining
- Model: LX80
- Warranty: 1 Year
- Highlight: Gold Centrifuge Concentrator, LX80 Gold Ore Separator Machine, Gold Ore Separator Machine

Product Description

Gold Ore Separator Machine LX80 model Gold Centrifuge Concentrator

Ascend simplified gold centrifugal concentrator Gold Kacha is a type of simplified gold concentrator to collect the big particle free gold in placer gold or grinded vein gold. It is an ideal equipment to replace the expensive knelson gold concentrator. It has advantages of high efficiency and low energy, It can work perfectly with gold wet pan mill machine in gold mining.

ASCEND

working principle

When the centrifuge starts working, the material is fed as a slurry of minerals and water into a rotating bowl that contains special fluidizing tanks or troughs for capturing heavy materials. Fluidization water/backwash water is introduced through multiple fluidization holes on the inner cone to retain heavy minerals in the bed. Fluidization water/backwash water plays an important role in the separation process.

Performance Advantages:

- 1) High efficiency, one ton per hour
- 2) High recovery ratio
- 3) Low energy and easy to operation
- 4) Low production cost and simple maintenance

specification

Name	Model	Power(kw)	Capacity (t/h)	Max.Feeding size(mm)	Water required(m³/h)	Max Slurry density	Concentrate weight per batch/KG	Run time per batch/Hour
Gold Kacha	LX80	1.1	1-1.2	2	2-3	30%	8-10	1
