

Gold grinding machine 1200 1100 models capacity 200 300 kg per hour with final product size 0.1-0.178mm in Africa

Our Product Introduction

for more products please visit us on mining-crushermachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Ascend
- Certification: ISO9001
- Model Number: 1600 1500 1400 1200 1100 1000
- Minimum Order Quantity: 1 set
- Price: USD 3800-4800 set
- Packaging Details: Water and rust proof in wooden box or cotainer
- Delivery Time: 7-10 work days
- Payment Terms: T/T, Western Union
- Supply Ability: 30 set per month

Product Specification

- Product Name: Wet Pan Mill
- Feeding Size: Requirementend
- Application: Iron Ore
- Advantages: High Efficiency Low Energy
- Quality: High Level
- Highlight: 1200 Gold grinding machine, 1100 Gold grinding machine

Gold mining equipment wet pan mill for gold ores

Wet Pan Mill is used for grinding gold ore, especially small rock stone with gold, which can grind into 100-150 mesh. Many customers from Africa would like to import wet pan mill because of low cost and high productivity. The most common way is to put mercury in the wet pan mill, and mix the gold particle with the mercury, which is called Amalgamation. Then the mixture of gold and mercury can be put into crucible for high temperature heating. During this process, the mercury is evaporated and pure gold is left in the crucible. The most important thing is that our customers can get pure gold directly after wet pan mill, which is suitable for people who want to begin small business.

ASCEND wet pan mill production

working principle

Wet pan mill working principle: The motor drives the speed reducer, the speed reducer drives the roller on the main shaft to operate, we add materials and liquids in a certain proportion for grinding, and then filters out the fixed materials with the

required particle size. Wet pan mill is widely used for grinding, sorting and processing of various metal minerals, non-metallic minerals, rare and precious metal gold and silver.

Main Features of Wet Pan Mill

1. Less investment.
2. Easy to operation and maintenance.
3. High efficiency and saving power.
4. It can take the place of ball mill because all the materials that ball mill can handle, the wet mill machine can handle as well.
5. The Best price river gold widely used Sudan China wet pan mill for gold is the ideal equipment for small and medium enterprises that are in the field of ore dressing.
6. The wet mill machine made by ASCEND, can offer the seal cover to reduce the air pollution.

Specification

Model	Type(mm)	Max feed size(mm)	Capacity(t/h)	Power(Kw)	Weight(ton)
1600	1600x350x200x460	<25	1-2	Y6L-30	13.5
1500	1500x300x150x420	<25	0.8-1.5	Y6L-22	11.3
1400	1400x260x150x350	<25	0.5-0.8	Y6L-18.5	8.5
1200	1200x180x120x250	<25	0.25-0.5	Y6L-7.5	5.5
1100	1100x160x120x250	<25	0.15-0.25	Y6L-5.5	4.5
1000	1000x180x120x250	<25	0.15-0.2	Y6L-5.5	4.3
