

Gold Trommel Screen Washing Plant For Collecting Gold Ore From 200 To 40 Mesh Size

Our Product Introduction

more products please visit us on mining-crushermachine.com

Basic Information

- Place of Origin: China
- Brand Name: Ascend
- Certification: CE/ISSO9001
- Model Number: GST20 GST40 GST50
- Minimum Order Quantity: 1 set
- Price: USD 3500-30000 Per set
- Packaging Details: Water and rust proof in wooden box or cotainer
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union
- Supply Ability: 10 set per month

Product Specification

- Capacity: 10 To 100 Ton Per Hour
- Warranty Period: 1 Year
- Screen Design: Unique Design For High Capacity And Performance, Prevents Clogging
- Core Selling Point: Hot Product 2024
- Processing Capacity: 100-300 M³/h Or 170-510 T/h
- Shaking Table: Further Improves Gold Grade
- Electric Gold Melting Furnace: Used To Heat Gold And Mercury Mixture And Obtain Pure Gold Bar
- Product Category: Gold Washing Plant
- Highlight: **Gold Ore Trommel Screen Washing Plant, Gold Trommel Screen Washing Plant**

Product Description

Product Description:

The design of the Gold Washing Plant is customizable based on specific mine details, ensuring optimal performance for each unique operation. The multiple filters and multilayer displays of the machine make it easy to use and maintain. The replaceable film plate ensures that the machine remains in top condition for long periods of time.

The Gold Washing Plant is highly efficient and has a large capacity, making it suitable for use in small-scale and large-scale mining operations. Its ability to handle multiple materials and its replaceable film plate ensure that it is both efficient and durable. The machine is designed to be easy to use and maintain, making it a reliable choice for any mining operation.

The Gold Washing Plant is a highly efficient machine that is designed to help you achieve maximum gold recovery. Its multiple filters and multilayer displays make it easy to use and maintain, while its replaceable film plate ensures that the machine remains in top condition for long periods of time. With a capacity of 10 to 100 tons per hour, this gold Trommel screen washing plant is suitable for use in small-scale and large-scale mining operations. It is an excellent choice for anyone looking to optimize their gold recovery process.

Product Category: Gold Washing Plant

Features:

Product Name: Gold Washing Plant

Usage: Primary separation stage of placer gold mining

Features: Drum Scrubber Washing Machine

Applicable Industry: Energy&Mining

Processing Capacity: 100-300 m³/h or 170-510 t/h

Specification:

Gold Trommel screen washing plant

Four models: GTS20, GTS50, MGT100, MGT200

Varying size, capacity, power, trommel screen, sluice box, water supply, and recovery rate

Technical Parameters:

Screen Design	Unique design for high capacity and performance, prevents clogging
Applicable Industry	Energy&Mining
Capacity	10 To 100 Ton Per Hour
Gold Sluice with Blanket	Used to recover remaining gold in the concentrator
Features	Drum Scrubber Washing Machine
Warranty Period	1 Year
Product Category	Gold Washing Plant
Electric Gold Melting Furnace	Used to heat gold and mercury mixture and obtain pure gold bar
Mercury Amalgamation Barrel or Small Ball Mill	Used to mix gold concentrate with mercury and form gold and mercury mixture
Usage	Primary separation stage of placer gold mining

Applications:

The Gold Washing Plant is designed and manufactured with high-quality materials to withstand harsh mining environments. The product is water and rustproof, packaged in wooden boxes or containers, and comes with a one-year warranty period.

The Gold Washing Plant is an electric gold melting furnace used to heat the gold and mercury mixture and obtain a pure gold bar. Its Trommel screen washing plant design is perfect for alluvial placer ore washing, making it ideal for the energy and mining industry.

This product is suitable for various application occasions and scenarios, including gold mining sites, riverbed gold mining, small-scale gold mining, and gold prospecting. The Gold Washing Plant is also perfect for gold exploration activities, mineral exploration, and geological surveying.

Investing in Ascend's Gold Washing Plant is a wise decision for those who want to maximize their gold mining profits. This product ensures efficient gold mining operations, reducing labor costs and increasing productivity.

Support and Services:

The Gold Washing Plant product is equipped with multiple technical support and services to ensure the highest level of customer satisfaction. Our experienced technical support team is available to answer any questions or concerns regarding the installation, maintenance, and operation of the Gold Washing Plant.

In addition, we offer a range of services, including on-site installation and training, regular maintenance and repair services, and replacement parts and upgrades. Our team is committed to providing timely and effective solutions to any issues that may arise, minimizing downtime and maximizing the performance of your Gold Washing Plant.

Furthermore, we provide comprehensive user manuals and instructional videos to help you get the most out of your Gold Washing Plant. Our goal is to ensure that our customers have all the resources they need to operate their equipment safely, efficiently, and effectively, from initial installation to ongoing maintenance and upgrades.

Packing and Shipping:

The Gold Washing Plant product will be packed in a sturdy cardboard box to ensure safe transport. The box will be labeled with the product name, dimensions, weight, and handling instructions.

Shipping:

We offer free standard shipping within the United States. Shipping times may vary depending on the destination, but typically take 3-7 business days. Expedited shipping options are also available for an additional fee. We ship internationally, but additional shipping fees may apply. Please contact us for a quote.

FAQ:

Q: What is the brand name of the gold washing plant?

A: The brand name of the gold washing plant is Ascend.

Q: What are the available models for the gold washing plant?

A: The available models for the gold washing plant are GST20, GST40, and GST50.

Q: Is the gold washing plant certified?

A: Yes, the gold washing plant is certified with CE/ISO9001.

Q: What is the minimum order quantity for the gold washing plant?

A: The minimum order quantity for the gold washing plant is 1 set.

Q: What are the payment terms for purchasing the gold washing plant?

A: The payment terms for purchasing the gold washing plant are T/T and Western Union.

Q: What is the delivery time and packaging details for the gold washing plant?

A: The delivery time for the gold washing plant is 7-10 working days, and it is water and rust proof in a wooden box or container.

Q: What is the price range for the gold washing plant?

A: The price range for the gold washing plant is USD 3500-30000 per set.

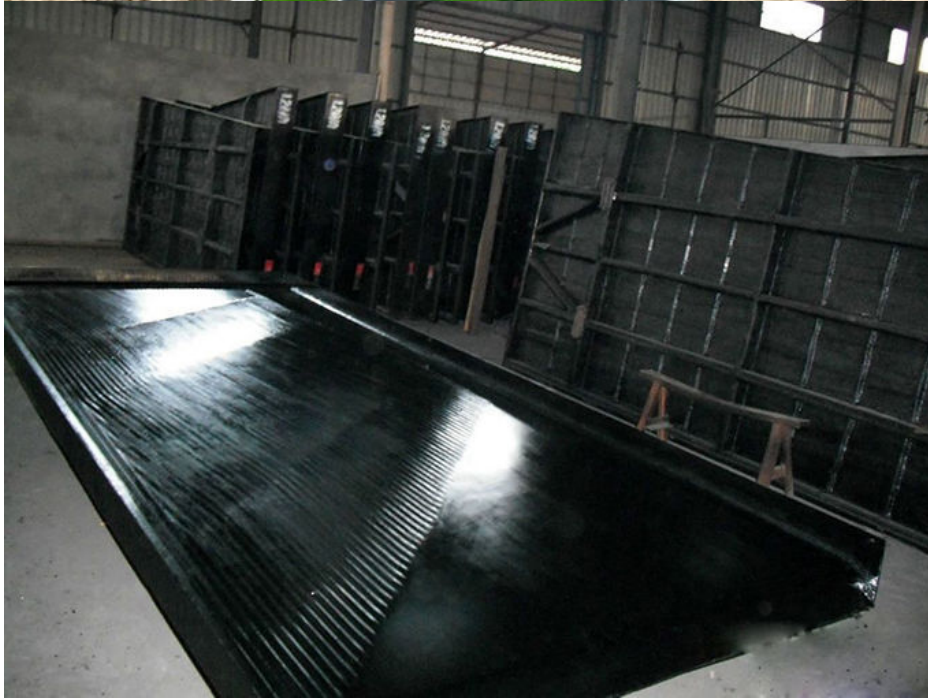

Q: What is the supply ability for the gold washing plant?

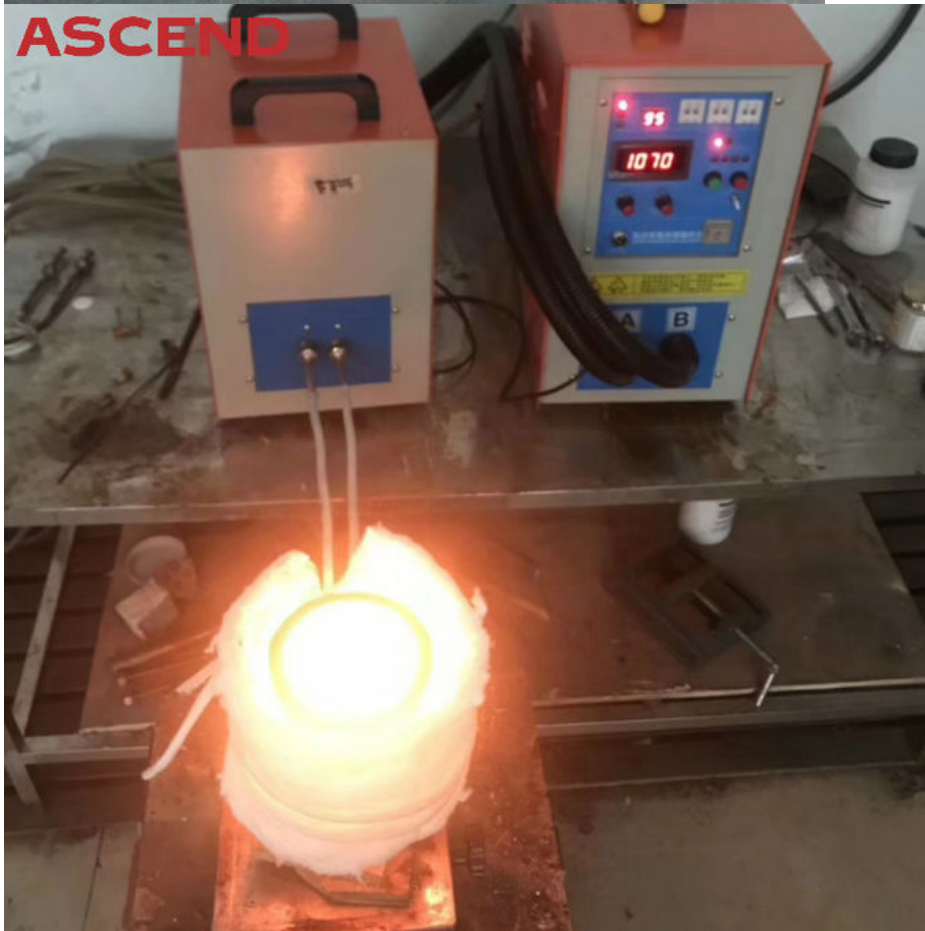

A: The supply ability for the gold washing plant is 10 sets per month.
