

Gold Sluice With Blanket Recover Remaining Gold In Gold Washing Plant Concentrator

Our Product Introduction

more products please visit us on mining-crushermachine.com

Basic Information

- Place of Origin: China
- Brand Name: Ascend
- Certification: CE/ISSO9001
- Model Number: GST20 GST40 GST50
- Minimum Order Quantity: 1 set
- Price: USD 3500-30000 Per set
- Packaging Details: Water and rust proof in wooden box or cotainer
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union
- Supply Ability: 10 set per month

Product Specification

- Electric Gold Melting Furnace: Used To Heat Gold And Mercury Mixture And Obtain Pure Gold Bar
- Processing Capacity: 100-300 M³/h Or 170-510 T/h
- Advantages: Suitable For Small To Large Materials, Multiple Filters, Multilayer Displays, Replaceable Film Plate, Efficient And Large Capacity
- Screen Design: Unique Design For High Capacity And Performance, Prevents Clogging
- Design: Customizable Based On Mine Details
- Specification: GTS20, GTS50, MGT100, MGT200 Models With Varying Size, Capacity, Power, Trommel Screen, Sluice Box, Water Supply, And Recovery Rate
- Product Name: Gold Washing Plant Mining Machinery For

Product Description:

The Gold Washing Plant is a hot product in 2024 and is widely used in the Energy&Mining industry. The product comes with a warranty period of 1 year, which gives the customers peace of mind. The Gold Washing Plant is designed to be durable and long-lasting, which ensures that the customers get the most out of their investment. This product is easy to use and requires minimal maintenance. It is designed to be user-friendly, which makes it perfect for beginners. The Gold Washing Plant is also suitable for experienced gold miners who want to increase their productivity and efficiency. The Gold Washing Plant is a versatile product that can be used in different mining environments. It is designed to work in various terrains, which makes it ideal for use in different locations. The product is also portable, which makes it easy to move from one location to another. In conclusion, the Gold Washing Plant is an essential tool for primary separation stage of placer gold mining. It is a hot product in 2024, with a warranty period of 1 year. It is suitable for use in the Energy&Mining industry and is designed to recover placer gold from the concentrates in the gold Trommel screen washing plant. It is easy to use, requires minimal maintenance, and is suitable for both beginners and experienced gold miners.

Features:

- Product Name: Gold Washing Plant mining machinery for alluvial placer ore with 100 200 tons per hour capacity
- Gold Trommel Screen Washing Plant: Separates gold ore according to size, with mesh size from 200 to 40
- Gold Centrifugal Concentrator: Collects gold ore with mesh size from 200 to 40, recovery rate up to 90%
- Mercury Amalgamation Barrel or Small Ball Mill: Used to mix gold concentrate with mercury and form gold and mercury mixture
- Features: Drum Scrubber Washing Machine
- Gold Sluice with Blanket: Used to recover remaining gold in the concentrator

Technical Parameters:

Usage	Primary separation stage of placer gold mining
Design	Customizable based on mine details
Shaking Table	Further improves gold grade
Product Category	Gold Washing Plant
Specification	GTS20, GTS50, MGT100, MGT200 models with varying size, capacity, power, trommel screen, sluice box, water supply, and recovery rate
Gold Centrifugal Concentrator	Collects gold ore with mesh size from 200 to 40, recovery rate up to 90%
Core Selling Point	Hot Product 2024
Gold Sluice with Blanket	Used to recover remaining gold in the concentrator
Product Name	Gold Trommel Screen Washing Plant mining machinery for alluvial placer ore with 100 200 tons per hour capacity
Screen Design	Unique design for high capacity and performance, prevents clogging

Applications:

The Gold Trommel screen washing plant is suitable for various mine details, as it is customizable. Its capacity ranges from 10 to 100 tons per hour, making it ideal for small to medium mining operations. The processing capacity is 100-300 m³/h or 170-510 t/h, which means that it can handle large amounts of gold ore. The washing plant comes with a 1-year warranty period, ensuring the customer's satisfaction and confidence in the product. The Gold Trommel screen washing plant is perfect for different gold mining scenarios. It can be used for gold mining in rivers, lakes, or even in the ocean. The washing plant can be used in various applications, including primary recovery of gold concentrate, secondary recovery of gold concentrate, and gold tailings recovery. The Gold Trommel screen washing plant is highly efficient and easy to operate. It is equipped with a shaking table that further improves the gold grade. The shaking table helps to separate the gold from other minerals, ensuring the highest possible gold recovery rate. The washing plant can also be used for other minerals such as diamond, gemstone, and tin mining operations. The Gold Trommel screen washing plant is packaged in a water and rust-proof wooden box or container, ensuring that it arrives at the destination in good condition. The delivery time is 7-10 working days, depending on the location of the customer. In summary, the Gold Trommel screen washing plant is an efficient, customizable, and reliable solution for gold mining operations. With its high processing capacity, it is suitable for both small and medium mining operations, making it a versatile product. Whether you are looking for primary recovery of gold concentrate, secondary recovery of gold concentrate, or gold tailings recovery, the Gold Trommel screen washing plant is the right product for you.

Support and Services:

The Gold Washing Plant product comes with comprehensive technical support and services to ensure optimal performance and efficiency. Our team of experts is available to provide assistance with installation, maintenance, and troubleshooting to keep your equipment running smoothly.

We also offer training services to help operators and maintenance personnel understand the proper use and care of the equipment. This can help to reduce downtime and increase the lifespan of the product.

In addition, we offer customization services for the Gold Washing Plant product to meet your specific needs and requirements. Our team can work with you to design and implement custom solutions that will enhance the performance and efficiency of your equipment.

Packing and Shipping:

Product Packaging:

The Gold Washing Plant will be carefully packaged in a sturdy wooden crate to ensure its safety during transportation. The crate will be labeled with the product name, weight, and dimensions for easy identification.

Shipping:

The Gold Washing Plant will be shipped via a reliable courier service to ensure timely delivery. Customers will be provided with a tracking number to monitor their shipment's progress. Shipping costs will be calculated based on the destination and weight of the package.

FAQ:

Q1: What is the brand name of the washing plant?

A1: The brand name of the washing plant is Ascend.

Q2: What is the minimum order quantity?

A2: The minimum order quantity is 1 set.

Q3: What is the price range for the washing plant?

A3: The price range for the washing plant is USD 3500-30000 per set.

Q4: What is the certification of the washing plant?

A4: The washing plant is certified with CE/ISO9001.

Q5: What is the delivery time for the washing plant?

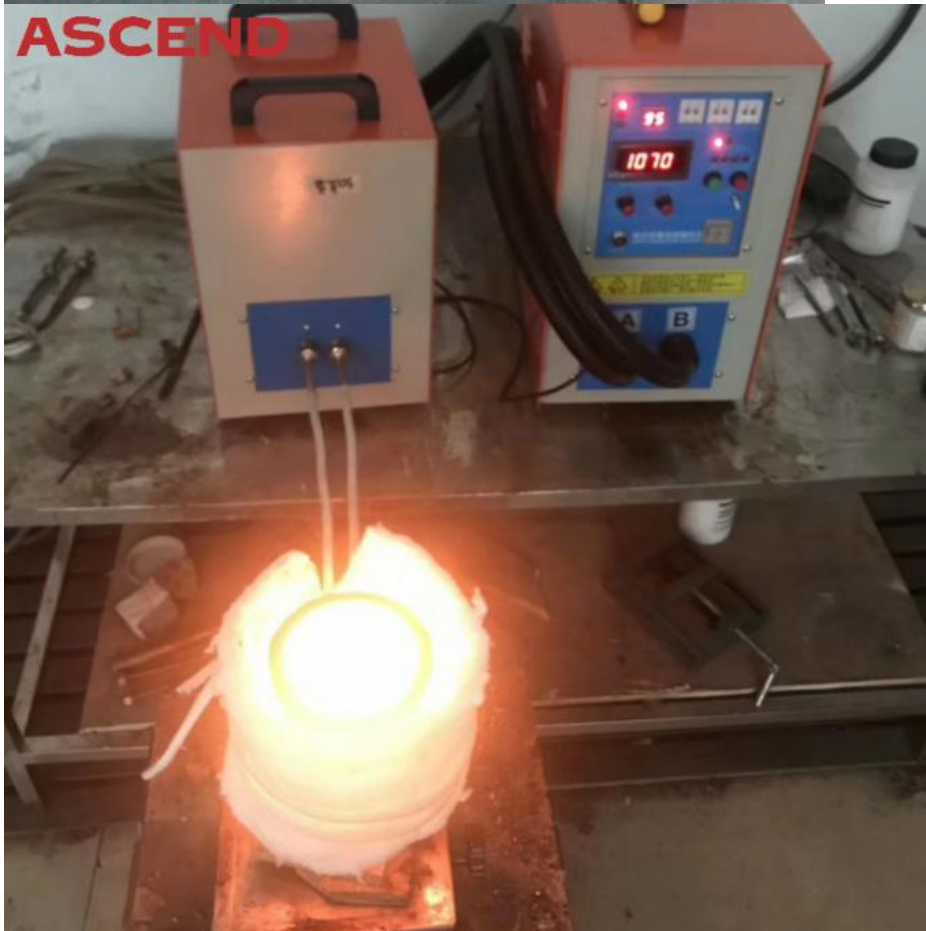

A5: The delivery time for the washing plant is 7-10 working days.
