

1 Period Gold Trommel Screen Washing Plant Customizable Based On Mine Details

Our Product Introduction

more products please visit us on mining-crushermachine.com

Basic Information

- Place of Origin: China
- Brand Name: Ascend
- Certification: CE/ISSO9001
- Model Number: GST20 GST40 GST50
- Minimum Order Quantity: 1 set
- Price: USD 3500-30000 Per set
- Packaging Details: Water and rust proof in wooden box or cotainer
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union
- Supply Ability: 10 set per month

Product Specification

- Product Name: Gold Washing Plant Mining Machinery For Alluvial Placer Ore With 100 200 Tons Per Hour Capacity
- Design: Customizable Based On Mine Details
- Advantages: Suitable For Small To Large Materials, Multiple Filters, Multilayer Displays, Replaceable Film Plate, Efficient And Large Capacity
- Usage: Primary Separation Stage Of Placer Gold Mining
- Core Selling Point: Hot Product 2024
- Gold Sluice With Blanket: Used To Recover Remaining Gold In The Concentrator
- Screen Design: Unique Design For High Capacity And Performance, Prevents Clogging

Product Description

Product Description:

As a hot product in 2024, the Gold Washing Plant is ideal for the Energy&Mining industry and is highly sought-after by professionals in the field. Its customizable design allows for increased efficiency and productivity, no matter the size of the operation.

With a capacity of 100-200 tons per hour, this gold Trommel screen washing plant is perfect for processing large quantities of placer ore.

Its durable construction and reliable performance make it a top choice for mining operations worldwide. The Gold Washing Plant is designed to withstand harsh mining environments and is built to last for years to come.

Investing in the Gold Washing Plant is a wise choice for any mining operation looking to maximize profits and increase efficiency. Its core selling point is its customizable design, which allows for maximum gold recovery and increased productivity. Don't miss out on this opportunity to improve your mining operation with the Gold Washing Plant.

Features:

Product Name: Gold Washing Plant

Shaking Table: Further improves gold grade

Specification:

Models: GTS20, GTS50, MGT100, MGT200

Varying size, capacity, power, trommel screen, sluice box, water supply, and recovery rate

Gold Centrifugal Concentrator: Collects gold ore with mesh size from 200 to 40, recovery rate up to 90%

Gold Sluice with Blanket: Used to recover remaining gold in the concentrator

Advantages:

Suitable for small to large materials

Multiple filters

Multilayer displays

Replaceable film plate

Efficient and large capacity

Technical Parameters:

Attribute	Description
Product Name	Gold Washing Plant mining machinery for alluvial placer ore with 100 200 tons per hour capacity
Product Category	Gold Washing Plant
Design	Customizable based on mine details
Advantages	Suitable for small to large materials, multiple filters, multilayer displays, replaceable film plate, efficient and large capacity
Features	Drum Scrubber Washing Machine
Mercury Amalgamation Barrel or Small Ball Mill	Used to mix gold concentrate with mercury and form gold and mercury mixture
Gold Centrifugal Concentrator	Collects gold ore with mesh size from 200 to 40, recovery rate up to 90%
Gold Sluice with Blanket	Used to recover remaining gold in the concentrator
Screen Design	Unique design for high capacity and performance, prevents clogging
Core Selling Point	Hot Product 2024

Applications:

The Ascend Gold Washing Plant is suitable for various occasions and scenarios. It can be used in gold mines, riverbanks, and other gold mining areas. Its processing capacity is 100-300 m³/h or 170-510 t/h, ensuring a high throughput. The product is equipped with a Drum Scrubber Washing Machine, which ensures efficient washing and separation of gold from rocks and sand. The gold Trommel screen washing plant can be used in all weather conditions and can work continuously for a long time, making it an ideal equipment for gold mining operations.

The gold Trommel screen washing plant comes with additional equipment such as a Gold Sluice with Blanket, which is used to recover remaining gold in the concentrator. The Gold Centrifugal Concentrator collects gold ore with mesh size from 200 to 40, with a recovery rate of up to 90%. The Electric Gold Melting Furnace is used to heat gold and mercury mixture and obtain pure gold bar. These additional equipment make the Ascend Gold Washing Plant a comprehensive and reliable equipment for gold mining operations.

The Ascend Gold Washing Plant is suitable for a wide range of applications. It can be used in small-scale gold mining operations, as well as large-scale mining operations. It can also be used for gold exploration and prospecting. It is an ideal equipment for gold mining companies, mining contractors, and individual miners. The product is durable, efficient, and easy to maintain, making it a valuable investment for gold mining operations.

Support and Services:

The Gold Washing Plant product comes with comprehensive technical support and services to ensure optimal performance and longevity of the equipment. Our team of experienced technicians is available to provide assistance with installation, training, maintenance, and troubleshooting. We also offer customized solutions to meet specific customer needs. Additionally, we provide regular updates and upgrades to keep the equipment up-to-date with the latest technology and industry standards. Our goal is to ensure that our customers have a seamless and efficient gold washing experience.

Packing and Shipping:

Product Packaging:

Gold washing plant will be packed in a wooden box to ensure safe transportation and delivery.

The dimensions of the wooden box will be 1.5m x 1.5m x 2.5m.

The weight of the wooden box will be approximately 1200kg.

Shipping:

Shipping will be arranged by the supplier.

The gold washing plant will be shipped via sea freight.

Delivery time will depend on the destination country and customs clearance procedures.

Customers will be provided with a tracking number to monitor the shipment status.

FAQ:

Q1: What is the brand name of the washing plant?

A1: The brand name of the washing plant is Ascend.

Q2: What is the minimum order quantity for the washing plant?

A2: The minimum order quantity for the washing plant is 1 set.

Q3: What certifications does the washing plant have?

A3: The washing plant has CE/ISO9001 certification.

Q4: What is the delivery time for the washing plant?

A4: The delivery time for the washing plant is 7-10 working days.

Q5: What are the payment terms for the washing plant?

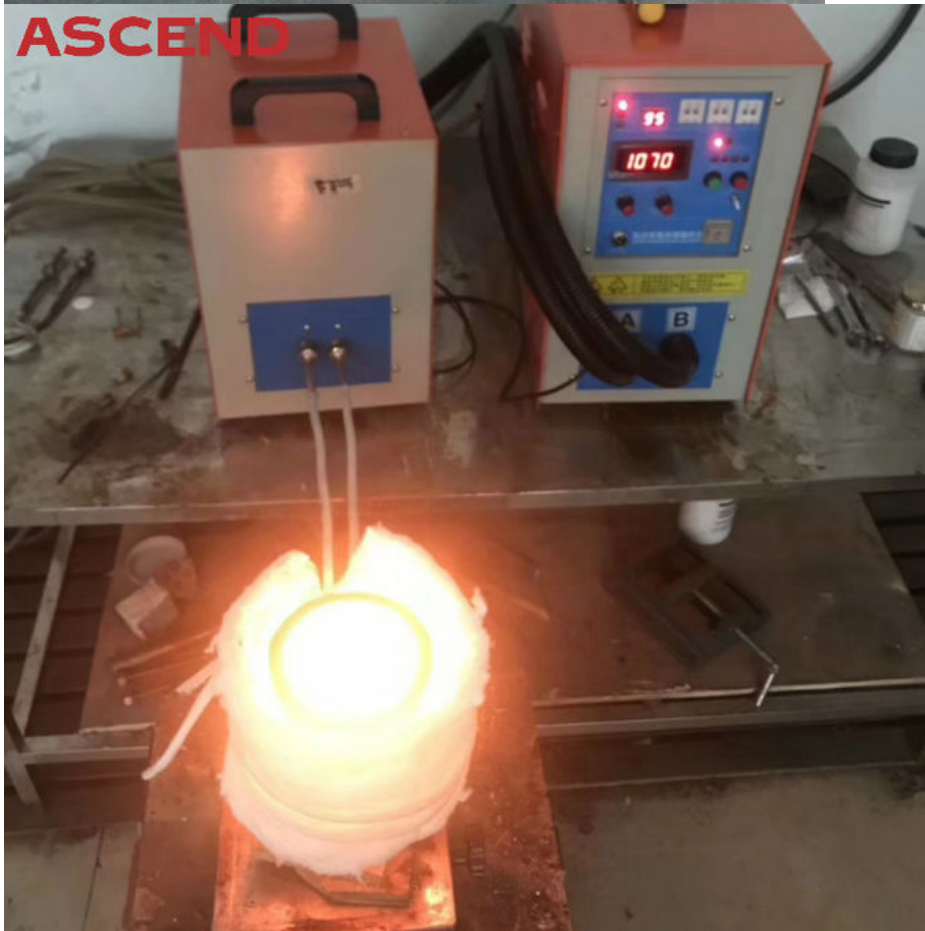

A5: The payment terms for the washing plant are T/T and Western Union.
